

Meeting Notes 4.17

Purpose: Updating team on individual progress and identifying possible specific next steps

Attendees: Miriam, Eric and Sarah via sms

Status:

1. Discussed realistic final goals post analyzing our experience, availability, and resources
 - a. We still want to accomplish our original two use-cases although they might need to be done in a different way than originally planned
2. Discussed brief operations TopCoder API offers from a first glance
 - a. Sarah will continue to look into TopCoder API more thoroughly so we can make ensure that we are using our resources to the fullest
3. Updates from Eric
 - a. No clear answers for how to use Firebase
 - b. Downloading things to set up MySQL database
 - c. Time consuming, possible roadblock
4. Updates from Miriam
 - a. Still no luck with not_allowed_token_type error
 - b. Re made app in slack api and have re-made token numerous times
 - c. Code is correct but something is wrong with slack api scopes
5. Next steps
 - a. Eric: continue setting up MySQL
 - b. Sarah: continue with TopCoder API
 - c. Miriam: continue setting up app with slack
